ENVIRON SKIN CARE - ADVANCED VITAMIN SKIN THERAPY

Environ is a cosmeceutical range, which means both pharmaceutical and medical science has been used in formulating the product. The range is based on active ingredients that give optimum penetration. Whilst most cosmetics work only on the top few, superficial layers of the skin, cosmeceuticals work down into the dermis and deeper.

Environ's products are predominantly based on vitamin A, which is clinically proven to repair DNA in skin cells. The products also contain high doses of vitamins C and E which are proven to reduce redness and inflammation, protect skin from UV rays and free radicals, stimulate collagen and elastin production (anti-aging), plump the skin and has a balancing effect on the oil within the skin.

Environ is a results driven range for results driven clients. No matter your age or skin concern Environ has a range to suit you.

Environ Electro-Sonic ESSENTIAL TREATMENTS

Environ's pioneering Dual Electro-Sonic Technology sets the benchmark for Professional Skincare Treatments. Low frequency Sonophoresis together with pulsed Iontophoresis in combination with Environ's Professional Skincare formulations, helps deliver more of what skin needs, where it needs it most - making a real lasting difference, for life.

Essention Youth Reset Help soften the appearance of fine lines, sun-damage & sagging skin with this peptide and vitamin-packed treatment for a more youthful appearance.

Essential Moisture Boost Help reduce the appearance of fine lines caused by dehydration and promote a more moisturised glow with this intensive treatment featuring hyaluronic acid as the key ingredient.

Essential Comfort Calm Help soothe and comfort sensitive and irritated skin with this treatment which combines powerful ingredients to leave the skin feeling restored with a healthy-looking radiance.

Essential Radiance Reveal Help target the signs of sun-damage and pigmentation with this treatment which boosts the skin with the correct combination of ingredients for an even-toned, radiant-looking appearance

Environ Electro-Sonic FOCUS-ON TREATMENTS

Specially developed to target specific areas using Environ's revolutionary Dual Electro-Sonic DF Technology, ensuring that your primary skincare concerns are directly addressed. Perfect for when time is limited.

Focus-On Filler This innovative, intense and non-invasive treatment helps to smooth the look of facial lines and restore a rejuvenated, plumped youthfulness to the skin's appearance.

Focus-On Frown The iconic peptide blend in this treatment assists to reduce the appearance of expression and frown lines on the forehead as well as eyes, leaving skin looking more smooth and relaxed.

Focus-On Eye Combining powerful peptide complexes with hyaluronic acid, this intense treatment promotes a refreshed, hydrated and youthful-looking eye area.

Focus-On Texture An intensive combination of the three Environ Technologies; Dual Electro-Sonic, Cool Peel and Micro-Needling which assists to improve the appearance of mild scarring, revealing smoother, evenly-textured skin.

Focus-On Even Tone The powerful combination of vitamin A, C and AHA's assists to improve the appearance of pigmentation irregularities for a more even-toned and brighter-looking skin.

Focus-On Body Profile This powerful body treatment targets the appearance of dimpled, lax and uneven skin texture in specific areas (including the jawline or stubborn cellulite on upper thighs and buttocks). The effective combination of active ingredients promotes a visibly smoother, firmer and contoured appearance.

LED LIGHT THERAPY MASK TREATMENTS

LED Light therapy is effective for skin rejuvenation, fine lines and wrinkles, sun damage, acne and problem skin, sensitive and inflammatory conditions such as rosacea, eczema and psoriasis, post treatment healing and scars.

LED Light Therapy is a breakthrough technology based on important research by NASA showing that certain frequencies of light significantly increase new tissue growth, reduce fine lines and wrinkles and can also stimulate collagen production.

LED light Therapy is clinically proven to be safe for all skin types and effective in the treatment of a wide range of skin conditions. It is a gentle, heat free treatment that does not contain harmful ultraviolet wavelengths and therefore cannot damage skin tissue.

The skin has the ability to absorb light and use it as a source of energy to stimulate a healing response. The use of different colour wavelengths enable the therapist to adapt the treatment to an individual's needs.
